# VS Consulting Group Named First Belgian Integrator & Reseller of Diapason Treasury Solutions

**Brussels/Paris, January 29, 2026 – VS Consulting Group, a Brussels-based advisory firm specializing in Finance, Digital Transformation, and AI, and Diapason, a pioneer in Treasury Value Management and a leading international provider of Treasury Management Systems (TMS), have announced a strategic partnership. This agreement names VS Consulting Group as Diapason's first integrator in Belgium, bringing world-class treasury technology together with deep local expertise to Belgian finance teams.**

### Transforming Treasury into a Value Creation Engine

Diapason is pioneering a fundamentally new approach to treasury management: Treasury Value Management. Unlike traditional cash management systems, Diapason transforms the treasury function from an administrative cost center into a strategic value creation engine. Designed by former corporate treasurers, its unique AI-powered myDiapason platform offers a modular and integrated approach covering all key treasury challenges: Liquidity, Payment, Risk, Guarantees and Investments. This approach combines standardized best practices with flexible configuration, going beyond traditional cash management to optimize the entire spectrum of financial resources.

### Local expertise driving performance for Belgian finance teams

As a firm built “by treasurers and finance professionals, for treasurers”, VS Consulting Group is uniquely positioned to bridge Diapason's technological excellence with the practical needs of Belgian finance teams. The partnership is founded on a shared commitment to delivering real, hands-on experience and high-quality, localized service.

“VS Consulting Group is delighted to launch this partnership with Diapason, which highlights the growth ambitions of both companies. Thanks to our team of treasury experts based in Belgium, we are ready to support organizations with innovative solutions to optimize and manage their treasury operations.” said Valérie Kibieta, Founding Partner.

“By choosing VS Consulting Group as our first integrator in Belgium, Diapason is partnering with a player that shares our vision of Treasury Value Management. Their hands-on expertise enables us to bring Belgian finance teams a unique combination: our AI-powered platform and the local support essential to transforming treasury into a true value creation center” added Raphaël de Talhouët, CEO of Diapason.

### A Unique Value Proposition for the Belgian Market

The collaboration delivers distinct value to the Belgian market:

- **Local Preferred Partner & Reseller:** Clients gain direct access to Diapason’s powerful technology through a trusted, Brussels-based team.
- **Deep Functional & Implementation Expertise:** Projects are guided by consultants with firsthand treasury experience, ensuring solutions that work in practice and deliver measurable value.
- **Enhanced Digital Capacity:** VS Consulting Group’s dedicated digital teams provide robust, end-to-end project support and delivery.
- **Future-Focused Innovation:** The firm’s newly launched AI department adds a layer of advanced technological insight, supporting clients in their digital transformation journey.

This partnership ensures Belgian treasury departments receive a local, high-quality, and closely supported service for Diapason TMS implementations, blending global software strength with unparalleled proximity and functional knowledge.

### Looking ahead

VS Consulting Group reinforces its commitment to being the leading partner for treasury transformation in Belgium, equipped to support the evolving digital and strategic needs of finance teams with authority, innovation, and proven expertise.
